

ADVANCED HEALTH MANAGEMENT PROGRAMME

Mr. Joseph Banda

Joseph is the Executive Director for the Training Institute for Primary Health Care. On the AHMP course he says: "The course has especially enhanced my working abilities. For one, my proposal writing has improved. In the past I didn't involve all my staff in strategic planning, but after the course I realised the importance thereof and I have ever since, motivating my staff in the process."

"FPD is very professional and I am recommending my staff to utilise the courses that they have to offer. I am looking forward to advancing further to the next level in management if FPD gives me the chance."
