

HIGHER CERTIFICATE IN MANAGEMENT

Dr. Catherine Blanchard

Dr. Blanchard is a Senior researcher and facilitator at the Centre of for Rural Health in Kwazulu-Natal.

After the HCM course, Dr. Blanchard has a much broader and deeper understanding of management and the skills required to be a manager. She is also more aware of her behavior as a supervisor and tries hard to incorporate the key skills and concepts that were taught. The pre-course material that she was given already gave her an advantage at work, even before classes started.

Catherine believes that FPD provides incredible opportunities to students, both through the large number of courses offered and through the scholarship programmes. "I would not have been able to complete the Higher Certificate in Management if it was not for the scholarship I got through FPD. I will always be grateful for this amazing opportunity."

"FPD's services are first class all the way! The administration of the entire course, right from applying to graduating, was excellent. Lucy and Samantha were always there to answer queries. Study materials were well-structured and informative, and always available on time. The facilitators of the workshops were all incredibly knowledgeable, insightful and approachable. A really smooth operation!"
