

ADVANCED HEALTH MANAGEMENT PROGRAMME

Dr. Johan Düring

Johan owns his own practice and was formerly the Chairman of the Board for Themba lethu Community Project.

I have done a number of courses with FPD especially the ones related to the subject of HIV/AIDS. I was impressed not only with the quality of the courses, but the quality of the facilitators. It is really encouraging for one to travel all the way to the venues and one gets good quality input from the facilitators.

"The course enabled me to get a lot of insight into management. And also helped me a great deal to write the strategic plan for the Themba lethu Community Project, thus enabling proper implementation of the project."
