

ADVANCED HEALTH MANAGEMENT PROGRAMME

Mrs. Sunyata Angelina Burrell Choyce

Mrs. Choyce is the Founding Director of Project COLOURS International, Children's Overseas Learning Opportunities and Resource Strategies.

"As Project COLORS is a small grass roots children charity where all the funds go directly to the projects, I truly hope that through achieving this YALE/FPD management program, opportunities will open up to find a sponsor to assist with salaries as COLORS runs on a completely volunteer level at this point."

"Now that I am finished with the YALE/FPD advanced management class, I look back at the experience as a very fulfilling one. I was truly impressed that the course promoted us as managers to think outside the box and be innovative and creative. These are two things that are often highly criticized and almost beat out of you in other programmes not to mention the meandering management structure of some organizations that still existing today."
